
MOHAMMED ALRAYES

PfMP, PgMP, PMP, PMI-ACP, MS
Project Execution General Manager – STC

Mohammed Alrayes is a strategic leader with more than 16 years of experience leading the execution of strategic initiatives that repeatedly supported top-line growth and fixed complex bottom-line issues.

His experience in the execution of strategic initiatives in STC spans many challenges: complex infrastructure, technology deployment, customer experience, solutions delivery and operation excellence.

Currently serving in a General Manager role at STC, Mohammed achieves results through a unique approach he developed as a result of his intensive operation and strategy execution experience. This approach speeds up decisions, resulting in faster value creation and realization.

Those who have worked with Mohammed describe him as an authentic and engaging leader, skilled problem solver, and innovative thinker. He has spearheaded team-building activities and initiated changes to stimulate innovation and promote excellence.

Mohammed began his career as an engineering project manager at STC and steadily advanced to positions of greater responsibility. He has collaborated with international vendors and local firms to build capability, capacity and innovate through initiatives valued at more than \$1B USD, and he has worked one-on-one with key customers to resolve complex issues.

Mohammed has a master of science in Computer Engineering, a bachelor of science in Electrical Engineering, and multiple certifications from the Project Management Institute (PMI). He also participated in STC's High Potential Leadership Program for two years, and is currently a participant in the STC Leadership Program.
